Further research to understand the problem from the perspective of the end user will be needed once you have defined your target audience.</p>

Comments	<p>The empathy map is rather brief described. In your next assignments, you can add more information / context to your assignment by writing a couple of paragraphs in additional to the framework.</p> <p>In what regards the problem statement, you did not write it in full nor gave context to it. <u>Your insights are not documented in the canvas in order to reach 16 points.</u> Your HMW canvas contain only one post it per column. Hence, it does not demonstrate your rationale and ideation processes that led to the final chosen HMW question. It is always important you show the process and contextualize your assignments. Add information as text on your wiki. It will increase your chances of receiving full points for the next assignments.</p> <p><u>We recognize your team is working, but your effort is not coming across on the uploaded assignments.</u> Present your work in more detail. The more detailed documentation along the way will help you with the final assignment.</p>
